Price List 2022

# Cryotherapy

Cryotherapy is the science of exposing the body to below freezing temperatures to stimulate physical and mental health benefits.

It reduces inflammation in the body by boosting an anti-inflammatory chemical called norepinephrine.

Cryotherapy also increases blood circulation throughout the body which results in a faster metabolic and caloric burning rate.

Treatment also increases the level of endorphins which can elevate mood

In terms of beauty benefits, cryotherapy increases collagen production, which in turn tightens the skin and brings out a youthful glow.

The effectiveness of the Cryosauna is proven not only by numerous studies, but first of all by the hundreds of thousands of people who have regained shape and health around the world, using this method.

The Cryosauna has become a modern practice for improving physical efficiency aimed at achieving better performance of our body in many areas. The whole body, stimulated by the nervous system following the sudden drop in temperature, registers a set of beneficial effects: Pain reliever, Analgesic, Anti-inflammatory, Anti-edema, Biostimulant, Low back pain, Cervical, Disorders and joint pain, Tendinopathies, Muscle injuries, Hematomas, Edema and joint effusions, Muscle overload, Rheumatic diseases, Dermatitis and skin affections, Myopathies, Post trauma disorders, Sleep disturbances

# FROZEN Cryosauna

The effectiveness of the Cryosauna is proven not only by numerous studies, but first of all by the hundreds of thousands of people who have regained shape and health around the world, using this method.

The Cryosauna has become a modern practice for improving physical efficiency aimed at achieving better performance of our body in many areas.

The whole body, stimulated by the nervous system following the sudden drop in temperature, registers a set of beneficial effects:

Painkiller, Analgesic, Anti-inflammatory, Anti-edema, Biostimulant, Low back pain, Neck pain, Joint disorders and pain, Tendinopathies, Muscle injuries, Hematomas, Edema and joint effusions, Muscle overload, Rheumatic diseases, Dermatitis and skin affections, Myopathies, Post trauma disorders sleep

# ANTARTICA Cryosauna

Whole Body Cryotherapy (WBC) is a three-minute treatment that exposes the body to extreme temperatures as low as  $-140^{\circ}\text{C}$  in order to promote recovery, performance, wellness, beauty and weight loss benefits.

**ANTARTICA TOTAL BODY** is designed to provide the simplest, safest and most effective cryotherapy treatment for the whole body including face. Built with the highest safety standards and with a futuristic design, it guarantees the customer a unique and safe experience, without ever coming into direct contact with nitrogen vapors. The intuitive and simplified interface is displayed on a 21-inch touch screen display, directly visible to the customer.

**ANTARTICA TOTAL BODY** is also available in the electric version, equipped with a powerful electric compressor that rapidly cools the air inside the cabin, avoiding contact with nitrogen.

For a complete treatment on the whole body in complete safety and freedom of movement.

# ICEBERG

## Localized Cryo

The LOCALIZED CRYO is a procedure oriented towards a specific part of the body that is treated with short exposures of cold air up to - 160 °.

During the treatment the surface of the body is cooled, and the body reacts by increasing the temperature, microcirculation and vasoconstriction, followed by rapid vascular renewal.

LOCALIZED CRYO is used to reduce body imperfections, to aid weight loss and to stimulate cell rejuvenation.

Low-temperature treatments minimize wrinkles, stretch marks and make the skin more elastic.

The LOCALIZED CRYO shows visible anti-aging effects from the first treatment, thanks to the CRyOFACIAL, a device through which it is possible to vaporize cooled air directly on the face and décolleté.

Functions	Simple	Grand
50L built-in tank	✓	✓
Advanced touch screen display 10.1	✓	✓

Iceberg Electrical Grand € 12.500

# Vacuum- Infrared

Vacuum-Infrared is a line of technological equipment for rapid weight loss and physical activity. Vacuum-Infrared takes advantage of the triple action of physical activity combined with the effect of infrared and vacuum technology!

# Vacutherm Simple

In Vacutherm devices the lower part of the body is "sealed" and subjected to the "Vacuum" effect. The action of Vacutherm exploits the double function of physical activity and the vacuum with infrared. While physical activity and infrared rays increase the body's metabolism by starting a mechanism of overheating of the skin from 1 to 4 ° C, sufficient to expel excess water and toxins for the next 4/6 hours after treatment, the "vacuum therapy" activated at inside the cabin, triggers a suction action in the parts affected by the seat, like a suction cup that is able to suck in the impurities that settle and then turn into imperfections. Thanks to the programmable software it is possible to customize the treatment by selecting the intensity of the physical load, the "vacuum" and the infrared. The result is guaranteed already after a few treatment sessions!

## TREADMILL SIMPLE

€ 13.900

Modified traction of the training platform that uses only components built with the utmost care and reliability

Asynchronous motor with a maximum power of 4.0 HP (8 HP Peak) that does not require maintenance. Color touch screen display with control of the treadmill parameters and the functions of the integrated "vacuum" systems VACUUM and "InfraRed".

Possibility of customizing programs.

Infrared range: IR-A, IR-B, IR-C

Lamp power: 900W

Program: 4 training programs, 1 Lipo drainage

Suction power: 0-30mBar

Power: 3.33 Kw

Power supply: 230V, 50Hz

Motor treadmill: AC, 4HP motor (8 HP peak)

Display: color touch screen

Dimensions: 242 x 118 x 180 (with door open 257)

Execution plane dimensions: 1500/500 mm

Net weight: 248 kg

Material: Composite

Maximum load: 180 Kg

## BIKE SIMPLE

### € 13.900

Suitable for people with overweight for whom the traditional vertical position is too stressful for the back, and for all those who find it too uncomfortable. This device, assisted by the "vacuum" VACUUM technology and InfraRed technology, helps you lose extra pounds, maintain the silhouette, improve physical fitness and even increase the elasticity of the skin.

Reliable and comfortable, it has been specially designed for people who cannot use a traditional model. Comfort during intensive training is ensured by a large surface on which to lie down.

Infrared range: IR-A, IR-B, IR-C

Lamp power: 400W

Program: Lipo drainage

Suction power: 0-30mBar

Power: 1.5 Kw

Power supply: 230V, 50Hz

Display: color touch screen

Dimensions: 245 x 111 x 116 cm

Net weight: 106 kg

Material: Composite

Maximum load: 150 Kg

# STEPPER SIMPLE

€ 13.900

Equipped with a powerful flywheel that guarantees smooth operation and exceptional comfort during training. Solid frame and intuitive display for monitoring standard functions such as time, amount of calories burned, number of training repetitions. Ability to customize programs.

Infrared range: IR-A, IR-B, IR-C

Lamp power: 900W

Suction power: 0-30mBar

Training programs: 48 physis, 5 pulses checked, 20 performances. 12 single, lipo-drainage EXIT Kettle pedals

Braking system: electromagnetic.

Load regulation: 25-400 watts (In 5 watt increments).

Power regulation: depending on the number of revolutions.

Step length 480 mm.

Self-aligning ball bearing, plus a double ball bearing.

Flywheel weight: approx. 22 kg

Dimensions: 236 x 880 x 186 (with door open 271) Net weight: 147 kg

Maximum load: 150 Kg.

Material: composites

# Vacutherm TOP

The new TOP version of the VACUTHERM line is enriched with new features that improve its functionality and performance:

**NEW GRAPHIC DISPLAY:**

Color touch screen display with control of the treadmill parameters and the functions of the integrated systems: START / STOP, training time, distance, heart rate, VACUUM and "InfraRed".

Possibility of customizing programs.

**CHROMOTHERAPY:**

at the base of the VACUTHERM there is a band of LED lights that change color.

**AROMATHERAPY:**

thanks to the use of a diffuser positioned inside the body, it is possible to activate the aroma therapy 5-10-15 minutes before the end of the treatment. You will immediately perceive a pleasant scent

**FITNESS & BEAUTY**

# Vacutherm TOP

## **INFRARED ADJUSTMENT:**

in the TOP version it is possible to adjust the intensity of the power of the 6 infrared lamps. In this way, the user can better adjust the seat based on the perception of heat, so that it is as pleasant as possible, without sacrificing the benefits of infrared rays. It is also possible to completely disable infrared rays.

## **TESTER FUNCTION:**

in addition to the classic version, which only provides for the signaling of a fault through an error code, in the TOP version it is possible to carry out tests of the various functions: infrared, vacuum, treadmill belt and aromatherapy.

## TREADMILL TOP € 14.500

Modified traction of the training platform that uses only components built with the utmost care and reliability  
Asynchronous motor with a maximum power of 4.0 HP (8 HP Peak) that does not require maintenance.  
Color touch screen display with control of the treadmill parameters and the functions of the integrated "vacuum" systems VACUUM and "InfraRed". Possibility of customizing programs.

Infrared range: IR-A, IR-B, IR-C

# Infrared

It takes advantage of the properties of heat to fight cellulite blemishes.

It has a reducing action, thanks to infrared radiation. The localized increase in temperature promotes vasodilation and therefore also proper circulation which facilitates the drainage of liquids and toxins. In fact, thanks to a particular, very selective wavelength, the photobiological radiation gives off heat only when it reaches the fatty tissue, increasing its temperature and lipolysis. It increases local metabolism, speeds up blood flow in the microcirculation, eliminates the stagnation of liquids in the capillaries, reduces skin relaxation and the effects of cellulite.

## INFRA CLIMB € 9.500

This device combines the classic daily movement of climbing stairs with INFRARED technology. Thanks to the synergy of these two technologies, many calories are burned and at the same time the buttocks, thighs and calves are toned, for a truly enviable silhouette. Furthermore, with the use of the device, the hip and knee joints are also kept in motion, thus favoring natural lubrication, allowing them to be kept in good health.

Infrared range: IR-A, IR-B, IR-C

Lamp power: 900W

Power supply: 230V, 50Hz

Speed range: from 24 to 164 steps / min

Display: color touch screen

Length: 1,550mm

Length with closed panels: 900 mm

Length with open panels: 1300 mm

Height: 2090 mm

Net weight: 400 kg

Material: Composite

Maximum load: 180 kg

## INFRARED ROWER

€ 4.900

This device closes the range of machines with infrared technology.

The INFRARED ROWER is the answer to customers' need to complete the slimming and toning actions of the whole body, as all the other devices only affect the abdomen, buttocks and lower limbs.

Thanks to the combined action of the rowing machine and INFRARED technology, in addition to burning calories, the muscles of the upper limbs and back are toned.

Infrared range: IR-A, IR-B, IR-C  
Lamp power: 6 x 150W  
Power supply: 900W  
Display: color touch screen  
Length: 2,400 mm  
Width: 1400 mm  
Height: 1090 mm

# Body Roll

Body Roll combines the effect of a slimming and lymphatic drainage massage with the healing effect of infrared rays. The revitalizing treatment for health and beauty consists of a massage with wooden rollers which aims at body shaping. It helps the slimming process, fights cellulite, tones the skin and at the same time improves the well-being of the user. The infrared rays mounted in the device make the massage even more effective, obtaining a beautiful and firm silhouette, strengthening the muscles, toning the skin and reducing stretch marks. In addition, the use of infrared rays makes the massage even more enjoyable!

## BODY ROLL € 4.500

Infrared IR-A, IR-B with adjustable intensity

Innovative technology Rollmassage- Lymphatic drainage 2 standard and individual programs

Duration of the program: 15, 30, 45, 60, 75, 90 min. LCD display

Display functions: Programs, lymphatic drainage, infrared

Adjustable roller rotation speed Drum stop: YES (at any time) Change in the direction of rotation of the rollers Modern design

High quality: 12 months warranty

It does not require specialized personnel, supervision or customer assistance during use

Length: 750mm

Width: 1100mm

Height: 780mm

Device weight: 75kg

Cover material: eco-leather

Roller material: varnished wood

Motor power: 370 W

Massage drum Max load weight: 120kg.

Max. Power 0.7 kW.

Low energy consumption

# Rollstar

Roll Star is equipped with wooden rollers that perform a lymphatic drainage massage.

Their mechanical action, combined with the heat of infrared rays, acts on the lymphatic system, fat cells and blood circulation, promoting the drainage of toxins and improving the supply of oxygen to the cells.

The result is a more toned and elastic skin, a reduction in fat mass and better oxygenation of the tissues.

# Infrared Sauna

The Infrared Sauna is a dry heat "bath" that gives a pleasant and relaxing sensation of well-being. It is precisely this characteristic that differentiates it from traditional saunas or Turkish baths, which many may not tolerate due to excessive heat and humidity.

The innovative "Triple Care" technology exploits all short and long infrared waves creating the much sought after "reset & restore" effect.

Cleverly arranged shortwave carbon emitters provide a warm and relaxing atmosphere for the mind, while quartz and magnesium emitters allow you to choose between muscle relaxation and detox.

Made from Canadian spruce wood, sourced from sustainably managed forests, hand crafted is completely free of knots and resin.

## SAUNA INFRARED

InfraStar 2 € 3.800

InfraStar 3 € 4.500

"Triple Care" technology

Panels made of high quality handcrafted polished and hand crafted spruce wood, free of knots and resins Air purifier (ozonator + ionizer) acts as a real lung in the cabin to disinfect and sterilize air particles and walls of the cabin with ozone, producing negative ions.

Intensity regulator for each infrared transmitter

Modern and elegant design

New generation audio system (USB or Bluetooth)

7-color LED chromotherapy

Power: 3.250 W

# Ems Shape

**EMSHAPE** is the new innovative system to reduce localized fat, toning and building muscles, acts in depth on muscle tissue, burning fat and increasing muscle mass itself.

Thanks to the use of HIFEM technology (High Intensity Focused Electromagnetic Energy)

**EMSHAPE** induces supra-maximal muscle contractions that cannot be obtained through normal physical exercise, nor with normal gym work, weight lifting or functional training.

With **EMSHAPE** in a single 30-minute session, the body is subjected to powerful muscle contractions, adapting to these extreme working conditions, favoring changes in the internal muscle structure and inducing an exceptional result in terms of muscle shape and endurance.

# Easy Motion Skin

Thanks to Bluetooth® technology and highly elastic fabric, Free Training allows full freedom of movement.

Strengthening, cardio or metabolism in a static and dynamic way, in any position, with any exercise and with all fitness equipment. High intensity electrostimulation with a short training duration!

The suit stimulates the entire muscular system using low frequency electrical impulses. Strength, stamina, anti-cellulite, or a relaxation program. Free Training replaces many hours of regular physical activity with a more efficient method of training in just 20 minutes twice a week.

Improve your sports performance!

Electrostimulation trains even the deepest muscle fibers, providing greater stability to all body segments.

Each suit trains 8 muscle groups at the same time: arms, chest, abdomen, neck, back, lumbar, buttocks and arms
